

## PROFILE

I am currently pursuing my bachelor's degree in Msc.It, driven by a passion for technology and a keen interest in management. Alongside my studies, I indulge my creative side through art, painting, and occasional poetry.

I am eager to explore UI/UX design, web front-end development, and graphic design as future career paths, despite my current lack of formal experience. With aspirations in entrepreneurship, I am committed to continuous learning and growth, aiming to integrate my creativity and technical skills in innovative ways.
